

The leading provider of biomass combustion and energy plant technology in Baltics, Europe

# ENERSTENA

GROUP

INTERNATIONAL PRESENCE IN MORE THAN 10 COUNTRIES

OVER 5 MILLION MWh OF RENEWABLE ENERGY PRODUCED BY OUR DELIVERED PLANTS

ENERGY PLANTS IMPLEMENTED WITH OUR TECHNOLOGY

OUR TEAM COMPRISES 210 TECHNOLOGY EXPERTS

OVER 70% OF OUR STAFF ARE QUALIFIED ENGINEERS

Our technology is trusted to deliver carbon neutral heat or also power from renewable biomass fuels by utilities and diverse process industries: greenhouses, dairies, grain, spirits, wood processing, tobacco and other.

Whether a sole technological island or a complete energy plant, our customers rely on our expertise to develop and deliver the best available technology for their needs and investment.

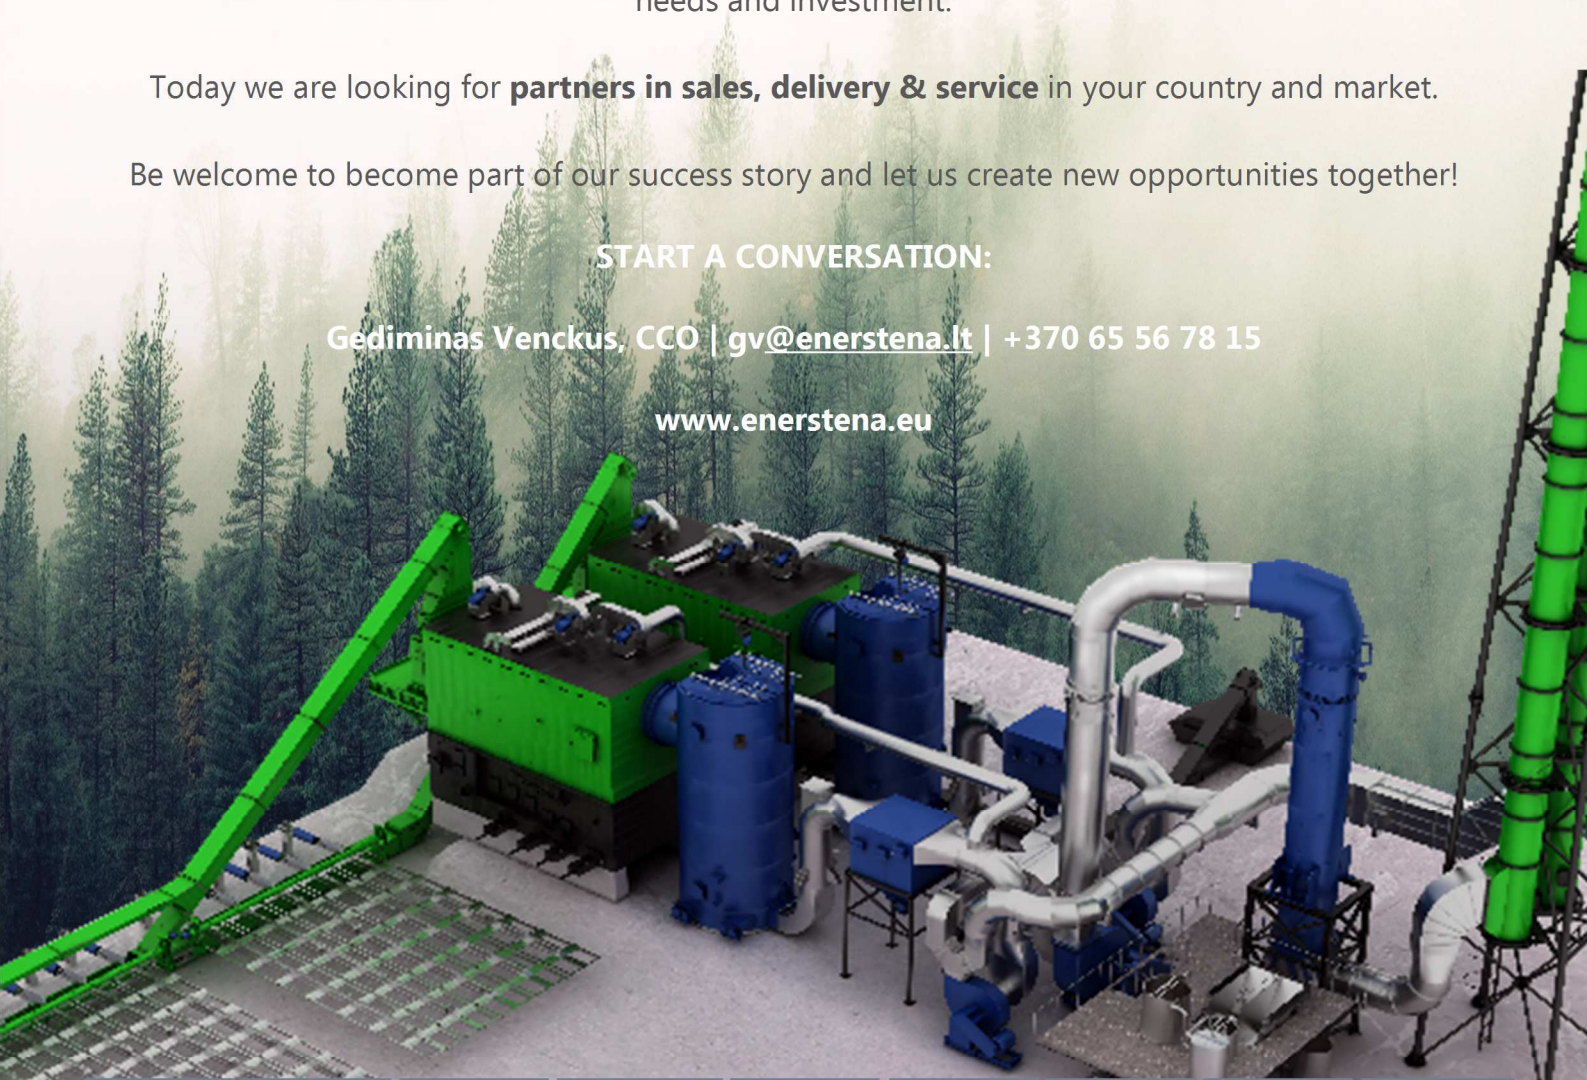

Today we are looking for **partners in sales, delivery & service** in your country and market.

Be welcome to become part of our success story and let us create new opportunities together!
