

Lithuania: A unique success story of biomass replacing fossil fuels

WBA Webinar Series – National experiences with bioenergy deployment

Lithuania: A unique success story of biomass replacing fossil fuels

18th May 2021

11.00 – 12.30 CEST // 12.00 – 13.30 Vilnius Time

Registration: [Link](#)

Lithuania's success story in replacing fossil fuels with biomass in District Heating (DH) system is a unique story. The share of fossil fuels in DH in Lithuania has been declining at particularly rapid rates. In 2011, 76% of DH was generated from fossil fuels in Lithuania while in 2018, only 31% of the heat was generated from fossil fuels with biomass heat increasing proportionately during the same time.

To share the success story of Lithuania in replacing fossil fuels with biomass and the numerous benefits generated in the society, **World Bioenergy Association** along with **Lithuania Biomass Energy Association** are pleased to organize the webinar – *Lithuania: A unique success story of biomass replacing fossil fuels*. In this upcoming webinar, speakers will inform about the latest developments of the bioenergy sector with company representatives showcasing the latest technologies in biomass district heating in the country. The webinar is the 1st in a new WBA webinar series focussing on national experiences with bioenergy development.

Speakers

- Vilma Gaubytė, Director of Lithuanian Biomass Energy Association LITBIOMA
- Andrius Smaliukas, Director of Baltpool International Biomass Exchange
- Valentinas Belousovas, Member of the Board of JSC Pusbrloliai
- Adomas Pesliakas, Sales manager of JSC UMP technika
- Tadas Lukoševičius, Sales manager of JSC Enerstena Group

The session will be moderated by Christian Rakos, President, World Bioenergy Association.

**WORLD BIOENERGY
ASSOCIATION**

World Bioenergy Association

- **Mission:** To promote the sustainable development of bioenergy on a global level and to support the business environment for bioenergy
- **Membership:** Associations, technology companies, equipment manufacturers, biofuel producers, research institutes covering solid, liquid and gaseous biofuels

Global voice of the bioenergy community!

Activities

- Latest information on bioenergy
 - Statistics, factsheets, mission reports, position papers
- Networking opportunity
 - Study trips, workshops and webinars
- Global platform
 - Website, Social media, Magazine
- Bioenergy advocacy
 - Observer to IRENA, UNFCCC...
